Summary:

Looker is an online tool that provides current (within one business day) membership information for Girl Scout employees and volunteers to leverage in providing the best possible service and support to our members worldwide. As a volunteer supporting local Girl Scout troops, events or functions, you’ve been provided access to Looker as a means to deliver this support and ensure girls fulfill our mission. Thanks for respecting the sensivity of the information by not sharing your log-in information or downloading full reports and sharing them with others without local council authorization.

Looker enables volunteers to ensure local volunteers and girl participants have current membership and provides detailed membership information to inform planning and participation in local events or trainings.

Quick Reference for Available Reports:

FULL ROSTER: See the full roster of your assigned service unit(s) or geographic area(s). Filter the roster by membership year, troop number or service unit.

MEMBERSHIP ANALYSIS: Compare details regarding membership types (troop leader, girl, etc) and number of troops in your area to last year.

NEW IN THE LAST TWO WEEKS: A roster showing only new members in the designated time period. Filter by membership year, service unit or troop.

TROOP DETAILS: See troop rosters and information, filtering from last year or by service unit.
