

Challenge Island – Omaha Northwest

Challenge Island partners with Girl Scout councils, Service Units, and troops nationwide to provide girls of all ages—Daisies through Ambassadors with one-of-a-kind STEAM-based experiences that fulfill badge requirements. Girl Scouts receive an exclusive Challenge Island Fun Patch during every program!

Challenge Island badge workshops provide girls the opportunity to strengthen their life skills in communication, collaboration, creative and critical thinking, leadership, public speaking, grit, perseverance through difficulty, problem-solving, innovative thinking, flexibility, adaptability, developing a growth mindset, and environmental advocacy.

Challenge Island workshops align with the Girl Scout Leadership Experience because they are...

- **Girl-led:** In Challenge Island, the girls decide how to build and design in their challenges.
- **Learning by Doing:** ALL our curriculum is hands-on where girls learn by doing it themselves!
- **Cooperative Learning:** Challenge Island programs are designed for girls to work together to accomplish their goals and for adult interaction to be minimal with guidance in the form of questions to help the girls figure it out for themselves!

DAISY TRIPLE AUTOMOTIVE BADGE WORKSHOP

Design a car for a special person or situation; become an engineer and build a car; collaborate with your troop to manufacture a new car.

Who: Daisies

When: On your schedule (2 hours)
